

## CVs of new SSF Board members elected on 14 June 2016

### **Roland Dominicé, CEO, Symbiotics**

Roland Dominicé is an expert in microfinance investments and international finance and development.

He studied social sciences and international relations both at the University of Geneva's Graduate Institute of International and Development Studies, where he wrote his master's thesis on state-building and the stages of modern political development, and at the University of Chicago's Committee on International Relations, where he wrote his master's thesis on globalization strategies and organizational development theory.

Roland Dominicé started his career in finance, both on the wealth management side, in institutional asset management at UBS, and the corporate finance side, as a management consultant at PricewaterhouseCoopers. He then joined the founding team at BueOrchard Finance to launch the first private wealth manager dedicated to microfinance investments, where he served as the CFO for three years. He helped the firm gain an international aura by leading the launch of the first microfinance structured bonds in the capital markets in 2004, in cooperation with J.P. Morgan and the U.S. Overseas Private Investment Corporation (OPIC). He then co-founded Symbiotics, where he initially served as a business development manager, prior to being elected CEO in 2008.

### **Patrick Fankhauser, Head Sales and Business Development, Inrate**

Patrick Fankhauser is Head of Sales and Business Development at Inrate, an independent sustainability rating agency based in Switzerland. Inrate and has more than 25 years of experience in linking its know-how on sustainability with the financial markets. Patrick Fankhauser is in particular responsible for the development of customized sustainability solutions for asset managers and asset owners.

Prior to joining Inrate, Patrick Fankhauser co-founded and built up the first private energy efficiency fund, which finances projects to reduce the energy consumption and carbon emissions of buildings and industrial facilities, at Sustainable Investment Partners.

Previously, he worked eight years at Credit Suisse in the service management and real estate sector and amongst others was responsible for the sustainability management of the group. Furthermore, he founded and successfully sold a real estate company and implemented the civil service organization for

the Swiss government.

Patrick Fankhauser has a master in Economics from the University of Basel and started his career as strategy consultant at the Boston Consulting Group.

### **Pierin Menzli, Head of Sustainable Investment Research, J. Safra Sarasin**

Pierin Menzli has 15 years of experience in institutional asset management with a focus on sustainable investing.

He joined Bank J. Safra Sarasin as Head of Sustainable Investment Research in 2013. In this role he co-launched the second generation of sustainable investing with a focus on performance based on in-depth research and innovation. Over the past three years he has also re-

established the external Advisory Council that allows the bank to work in close partnership with international scientific and academic partners. He is also a regular speaker at national and international investor conferences and holds irregular university lectures.

He is a co-founder and member of the board of Contrast Capital, a specialist advisory consultancy. In an academic partnership he also conducted the first Swiss asset owner survey on sustainable investing in 2012.

From 2002 until 2010 Pierin Menzli worked at SAM (now RobecoSAM) where he was the Head of Research responsible for an international analyst team. Pierin Menzli started his career as financial and sustainability analyst at SAM in 2002.

He holds a Master of Arts with a specialization in environmental economics of University of St. Gallen (HSG).

Pierin Menzli is married and has two kids. The family lives in the city of Zurich but has strong ties and roots in Graubünden. He spends most of his leisure time ski touring and mountaineering in the beautiful mountains.

### **Rochus Mommartz, CEO, responsAbility**

Rochus Mommartz is the CEO of responsAbility Investments AG, a leading global asset manager specializing in development investments in developing and emerging markets. responsAbility manages more than USD 3.1 billion in assets and is invested in more than 530 companies and over 90 countries, via 6 different investment vehicles.\* Rochus Mommartz has more than 25 years of experience in emerging market investments and banking operations. He started his career as a consultant and worked in over 40 developing countries where he designed and implemented regulatory frameworks for financial

intermediaries and built up microfinance and SME banks from scratch.

Rochus Mommartz has worked with responsAbility Investments AG since the inception of the company and he initiated the equity investment practice. He established two long-term oriented holding companies for responsAbility for which he acts as CEO or Board Member.

Rochus Mommartz holds a MSc. in Economics from the Freie Universität Berlin.

\*as of May 2016

### **Andreas Spiegel, Head Group Sustainability Risk, Swiss Re**

Andreas Spiegel acts as Head of Group Sustainability Risk. The unit drives strategic efforts to integrate environmental, social and governance risks and opportunities into Swiss Re's business practices and operations, it manages reputational risks associated to sensitive business transactions and it manages the dialogue with Swiss Re's public stakeholders like governments, UN organizations, associations, long-term investors, NGOs and the public. Andreas co-chaired the UN Principles for Sustainable Insurance from 2013-2015 (currently he acts as a board member) and he is a member of the Financial Stability Board Task force on Climate-related Financial Disclosures.

In his former role as Senior Climate Change Advisor for Swiss Re he was steering Swiss Re's climate change strategy and execution of strategic initiatives to assess and manage risks, seize business opportunities (public sector risk transfer solutions, renewable energy, agricultural micro insurance), influence the business environment and position Swiss Re on the topic. In 2009/10 he was a member of the official Swiss Federal climate delegation to the UN climate negotiations in Copenhagen and he represented Swiss Re on the topic in various external organizations (UNEP FI Steering Committee, UNEP FI Climate Change Working Group, Climate Group, Climate Wise, Geneva Association, Economiesuisse).

Andreas holds a Master of Science (MSc) degree in Environmental Sciences from the Federal Institute of Technology in Switzerland (ETH), with a main subject in environmental micro-biology and energy technology. In his previous roles as consultant for Accenture and as climate change expert for UBS he gained a comprehensive insight into the environmental risk landscape of financial institutions.
