Programme: Il ruolo crescente della sostenibilità nel finanziamento

Date: Tuesday, 10 February 2026, 16:00-17:30 (followed by drinks)
Location: Centro Study Villa Negroni, Vezia

Based on the Swiss Sustainable Lending Market Study 2025, published jointly by SSF and the Zurich University of Applied Science (ZHAW), we will provide detailed insights on the integration of ESG factors in the Swiss lending market by illustrating current market practice and progress achieved over the past two years. At the event, the main author of the report will present the findings and various practitioners will share insights into their strategies and sustainable lending approaches.
