

## SSF ANNUAL CONFERENCE: GAME-CHANGERS IN FINANCE – LEVERAGING SWISS EXPERTISE

19 June 2018 | 13:30-18:00, Kursaal, Bern

We are happy to welcome you to the 2018 Swiss Sustainable Finance (SSF) Annual Conference, where we bring together professionals from the financial industry to tackle various themes related to sustainable finance and take a closer look at how the Swiss market is developing.

The tide is turning in the realm of sustainable finance.

Climate risks are gaining higher prominence amongst institutional investors, while Europe is shifting up a gear with an action plan to direct financial flows towards a more sustainable future.

Today, SSF will discuss with you and different experts how the Swiss financial market can profit from those trends, while helping to shape their development.

---

### SSF IS PROUD TO PRESENT THE FOLLOWING KEYNOTE SPEAKERS

**PHILIPPE LE HOUÉROU**

CEO, International Finance Corporation (IFC)

**SIMON ZADEK**

Principal, Project Catalyst, United Nations  
Development Programme (UNDP)

---
